

## **Our COVID/Cold & Flu Season Policy**

A E Counseling Group

Your health is your business and we believe you have the freedom to avail yourself of the healthcare market in any legal manner of your choosing. In order for you to receive the kind of care you feel the most comfortable with, we offer two counseling service options: In-person face-to-face and video.

Most of our clients continue to seek the, "one-on-one" personal approach and specifically request the in-person option with our counselors. Our offices go through a daily cleaning process to ensure your safety.

If you prefer to meet with our counselors via phone or video conferencing, for any reason at all, we will gladly honor that request.
